

Python "Kungfu" for Cyber Security Testing, Threat Intelligence and Automation

Course Fee: HK\$6,600 (May apply up to HK\$4,400 subsidy)

*Maximum saving, with the final grant subjects to approval.

Python is an essential programming language for cyber security professionals to achieve various security check up tasks and assessments. The language is flexible and powerful, with available libraries for network programming, data management and even network scanning.

Many professionals use open source tools and frameworks which are developed in Python. In this 2-day course, cyber security professionals will understand the basics of Python programming such that they can develop their own tools or extend one's module, integrate with the preferred APIs and export their favorite results for report or research purpose.

Programme code	10010845
Date and time	1-2 February 2021 09:30 – 17:00
Venue	1/F, HKPC Building, 78 Tat Chee Avenue, Kowloon, Hong Kong
Medium	Cantonese with English terminology
Fee	<p>Early Bird Price (deadline on 31 December 2020):</p> <ul style="list-style-type: none"> - Non-member: HK\$6,500 per person - Member of Organiser/Supporting Organisations: HK\$6,400 per person <p>Regular Price:</p> <ul style="list-style-type: none"> - Non-member: HK\$6,600 per person - Member of Organiser/Supporting Organisations: HK\$6,500 per person
Remarks	The application deadline is 22 January 2021 . Late submission will NOT be considered.

Course Objectives

Enable cyber security professionals to start explore python programming such that they can develop or customise security tools and applications found in the open source community, carry out more substantial testing, fuzzing and threat intelligence collection.

Course Outline

Day 1

- ◆ Python Fundamentals
 - Primitive Type
 - Import Library
 - If, Then, Else
 - Loop
 - Print
 - Open File
 - Run and debug
 - Installation
 - Json / CSV / Pandas / NumPy
 - Date Time
 - Export to File
 - Function Class
 - Exception
 - Network, Request
 - Regular Expression

Day 2

- ◆ Network Programming (Web request)
- ◆ SQL Injection and Fuzzing Parameters
- ◆ System Programming (Get Windows Process)
- ◆ Export Scanned Result to JSON
- ◆ Integrate and Use of Virus Total or any.run API
- ◆ Testing Vulnerability, System Process, etc.
- ◆ Encryption
- ◆ Security Open Source Python Tools (Usage and customisation, add features)
 - W3AF
 - DNS Tools
 - More tools can be covered
 - Phishing website detection
 - Scan ports, services, etc

Target Audience

- ✓ IT Security Auditor
- ✓ Application Developer
- ✓ IT Security Consultant
- ✓ Penetration Tester
- ✓ IT Security Officer

Certificate of Training

Participants who have attained 75% or more attendance will be awarded Attendance Certificate.

RTTP Training Grant Application

Companies should submit their RTTP training grant application for their employee(s) via <https://rttp.vtc.edu.hk/rttp/login> at least two weeks before course commencement. Alternatively, [application form](#) could be submitted by email to rttp@vtc.edu.hk along with supporting documents.

Trainers

Mr Anthony LAI

VX Research Limited

Anthony LAI is the holder of SANS GREM (Gold Paper) since 2010 (Level 3 in Incident Response Management) and SANS GXPN (Level 3 of Penetration Test). He has over 15 years of experience in information security and quality assurance, including penetration test, exploitation research, malware analysis, threat analysis, reverse engineering, and incident response and management.

Mr Johnny WONG

Developer and Researcher, VXCON

Johnny WONG has started his development life for at least 6 years. He has expertise in Python and .NET programming, and is working with Anthony on various voluntary security research projects and vulnerability research.

Mr Austin LAU

Developer and Researcher, VXCON

Austin LAU has started his development life for at least 6 years. He has expertise in Python and .NET programming, and is working with Anthony on various voluntary security research projects and vulnerability research.

Enrolment Methods

1. Scan the QR code to complete the enrolment and payment online.
2. Mail the crossed cheque with payee name "Hong Kong Productivity Council" (in HK dollar) and the application form should be mailed to Hong Kong Productivity Council, 2/F, HKPC Building, 78 Tat Chee Avenue, Kowloon (attention to Ms Judy LIU). Please indicate the course name and course code on the envelope.

(Only receipt printed with receipt printers at HKPC is valid. Receipt of cheque payment is subject to bank clearance.)
